

Development Engineer

Provide technical engineering services relating to new development infrastructure, ensuring these developments align the environmental engineering standards.

Our Tikanga

Whanaungatanga

(fostering relationships and a sense of connection)

- We build on relationships established through shared experiences and working together.
- We get to know each other and take time to greet each other.
- We create opportunities to build relationships and share knowledge with a diverse range of people.
- We value the people around us and their unique contribution to the organisation.

Manaakitanga

(showing respect and care for others, hospitality, kindness and support)

- By showing manaaki we lift the mana (prestige) of all involved.
- We are part of the community and care about outcomes for external and internal customers.
- Our interactions with customers will respect and support their needs.

Kotahitanga

(unity, solidarity, togetherness and collective action)

- We have one shared direction and we all work together towards achieving it.
- We will stop doing anything that strays us from the agreed path to success.
- Our processes lead us to unified outcomes for our customers.
- We speak as one voice.

Atawhaitanga

(protection, stewardship, trust and a responsibility for long term outcomes)

- We deliver our responsibilities in the management and sustainability of our District in a trustworthy way.
- We collaborate and establish partnerships that enhance our role in the social, environmental, economic and cultural wellbeing of our communities.

Our expectations

As part of the Whangarei District Council we want to work as a team to deliver the best outcomes for our district. We are building our organisational culture around the principles of delivering for our customers, our organisational tikanga, working together, and focussing on outcomes rather than tasks.

That means we will:

- provide strong customer service to all our customers
- operate collaboratively as a total Council team
- deliver our services in a way that is best for the district (as opposed to best for the Council), and
- use our organisational tikanga to guide our decision making.

In short, we want you to think about what we are trying to achieve, and then work as a team to provide great services to the residents of our district.

Development Engineer – that's your primary task at Whangarei District Council. But working with us is much more than simply completing the task – it's about how you go about doing the task, how you make a difference to the organisation, the ways you work with others, and how you deliver the best services to the district.

We're continually looking at better ways of working together here at Council. We think each of us has a key role to play in making our district a great place to live. We do that by giving superb service to our customers; we do it by working together as a group; we do it by building a culture where we can all contribute our ideas; and we do it by focusing on our outcomes.

Where appropriate, we want you to be part of cross organisational teams, to bring your solutions to the table, and to work with those teams to implement them.

What you will do

- Assess resource consent applications for engineering requirements and seek further information if necessary.
- Compile a report and recommend engineering conditions of consent to the reporting planner.
- Present engineering evidence at Resource Consent and Environment Court hearings.
- Liaise with applicants, professional advisors, and internal Council staff on engineering matters.
- Process and approve engineering plans in accordance with the consent conditions.
- Oversee implementation of engineering conditions of consent for issuing of Section 223 and 224(c) RMA certificates.
- Assess and approve bond applications for conditions of consent.
- Provide resource consent engineering advice to applicants, agents and the general public.
- Recommend policy, procedures and processes to management on resource consent engineering issues.

What we all do

- Demonstrate a commitment to cultural awareness in all aspects of work and development.
- Demonstrate a commitment to Council's Diversity policy in all aspects of work and development.
- Embrace training and professional development opportunities for continuing improvement.
- Undertake Civil Defence Emergency Management responsibilities if required

Customer service

- Demonstrate a "customer first" culture within the team, department and in the wider organisation.
- Act as a Customer Advocate in the team, department and in the wider organisation.
- See customer feedback as an opportunity to improve service.
- Develop partnerships within the organisation to meet customer needs.
- Contribute to the development of customer focused policies and procedures.

Health and safety

- Accurately and promptly report all accidents, incidents and risks by the end of the working day.
- Keep yourself and others safe.
- Adhere to all Council Health & Safety policies, procedures and guidelines.

What you will bring

- Bachelor of Engineering (Civil) or equivalent and 2 years post qualification experience.
- Experience resource consent processing and/or land development engineering (preferred).
- Ability to work methodically and efficiently and to set and meet appropriate standards and deadlines.
- Ability to communicate technical information with a varied and broad range of stakeholders
- Ability to work effectively with others through development of strong working relationships and provision of clear well thought out advice.
- Demonstrated ability to work well and support others within a team environment.
- Effective problem solving skills and ability to make sound, well considered decisions in a timely manner.

- Environmental awareness.
- A high degree of professionalism.
- Strong report writing skills.
